WeatherXL

WeatherXL is at its best in places where nature is at its worst. This silicone-modified polyester coating not only offers protection from harsh elements, it offers tremendous color and gloss retention plus extreme abrasion, chipping and marring resistance.

WeatherXL coatings provide a number of unique benefits including:

- Superior weatherability
- Best resistance yet to chalking, fading and scratching for SMP
- Exceptional color and gloss retention
- Outstanding color consistency
- Proven durability
- Many colors LEED, CRRC, and ENERGY STAR® certified LEED certifications.
